

MACS Gallery at Narooma Visitor Information Centre

MACS Members have the opportunity to exhibit their art and craft at Narooma Visitor Information Centre. This is a good gallery for craft and three-dimensional works, as well as small 2-dimensional works - especially with a local theme. This gallery is a chance for Visitors and Locals to see some of the artwork members produce.

The exhibition is changed frequently, and the curator is there to receive work on Friday afternoons.
